EXPERIENCE

Data Product Manager

Oct 2023 – Present

Commonwealth Bank of Australia, Bangalore

- Owned end-to-end data product delivery across banking platforms, defining product vision, roadmap, and governance to drive modernization, compliance, and measurable business outcomes.
- Established enterprise data lineage, metadata, and data governance capabilities, improving regulatory traceability, audit readiness, and data trust by 40%.
- Business Banking: Optimized core data products and pipelines, reducing processing latency by 35%, enabling faster credit risk decisions and improving operational resilience.
- Business Lending: Scaled lending data products by automating 70% of ingestion workflows, reducing operational overhead and accelerating delivery velocity by 30%.
- Enhanced data-driven servicing for credit and savings products, delivering a 20-point NPS uplift through customer-centric insights and platform improvements.
- Led product delivery across four cross-functional squads, prioritizing backlogs, aligning stakeholders, and reducing time-to-market by 25% through agile, outcome-focused execution.

Data Technical Business Analyst

Feb 2022 – Oct 2023

Commonwealth Bank of Australia, Bangalore

- Delivered compliance-first data architecture aligned with APRA and ASIC mandates, achieving 100% audit pass rate and reducing regulatory risk exposure through robust KYC and AML frameworks.
- Led data integration for RBS and Bankwest, improving reporting accuracy by 25% and enabling real-time insights for regulatory and operational teams across Mobile and Website channels.
- Facilitated stakeholder workshops to validate service pain points and co-design data-driven solutions for digital servicing journeys, including fraud prevention and secure mobile experiences.
- Authored technical specifications and solution designs that accelerated delivery timelines by 20%, aligning with agile product development cycles and strengthening Fraud & Scam detection capabilities.

Business Intelligence Analyst

Jun 2020 – Feb 2022

Tata Consultancy Services (Client: PepsiCo), Kolkata

- Embedded predictive controls in sales forecasting models, reducing supply chain discrepancies by 18% and improving inventory accuracy.
- Developed regional BI dashboards that contributed to a 12% YoY uplift in North American beverage sales by surfacing actionable insights for commercial teams.
- Led Agile transformation as Scrum Master/Team Lead, increasing dashboard delivery velocity by 30% and improving stakeholder satisfaction with iterative releases.

Business Analyst

May 2017 – Jun 2020

Tata Consultancy Services (Client: Citibank N.A.), Kolkata

- Delivered executive-level risk dashboards, reducing decision latency by 40% and enhancing transparency across fraud and compliance units.
- Automated credit card operations using RPA, saving 800+ hours annually and improving SLA adherence across servicing teams.
- Reengineered fraud investigation workflows, cutting resolution times by 20% and improving customer trust scores.
